Re: United States v. Okparaekwe s4 17 Cr. 225 (NSR)

Docket in case # 17 ~~CV~~/CR 225

Dear Judge,

As: Supp. let. to D's pro se motion to withdraw plea
Date: 08/04/2021

Okparaekwe would like this letter to serve as a supplement to his motion to withdraw his plea.

Okparaekwe is innocent of count 1 of the criminal information because U-47700 is an isomer of AH-7921. The DEA made all isomers of AH-7921 Schedule I controlled substances by publishing a notice in the Federal Register. Thus, upon the effective date of this notice, U-47700, an isomer of AH-7921, was a controlled substance and could not have been a controlled substance analogue.

Therefore, Okparaekwe is legally innocent of Count 1.

Thanks,

P.S.: Title 21, section 802(32) clearly states that controlled substance analogues CANNOT be controlled substances.

The Government is directed to respond on or before
August 13, 2021.
